

## NMMAC Club Meeting Minutes 2/11/2009

Attendance – John Pavlick, Tom Coury, Merrill Morsey, Brett McCleary, Pete VanValkenburg, Chris Iorio, Ron Donato, Glen Hochstetter, Jack Tracey. If at all possible please try to make at least one club meeting. It won't hurt.

### Treasure's Report

Merrill noted we have balance of \$3049 in the bank. Dues are due by the end of March. Currently we have 27 members. Please remit dues to Merrill.

### Old Business

No update on the 200 acre field. Hopefully Joe Kaufman will get an update. Jack Tracey to put directions to the Candlelight Farms Field so we can go up and check it out. Jack strongly urges members to go check out the field so we can decide whether we want to try to make a deal with the owner.

WRAM show is coming up soon.

Vernon show is coming was last Sunday but apparently no one from the club attended.

Chris Iorio has installed the air cylinder, tail gear and some servos in his P-47 warbird that he's building.

### Safety

Brett McCleary advised the using CA glue for extended periods of time can result in serious problems. Please use caution with CA.

### New Business

Eleanor called Jack for dates for events for the Summer. Brett wants to have a Super Warbird Spectacular. Jack would like to do a Fun Fly. Brett suggested that we could put a notice in Model Aviation. John Pavlick suggested putting a notice on RC Universe. Jack suggested moving Kid's Day closer to the Annual Show. The Annual show would be July 26 with a rain date of August 2. August 9 would be for the Kid's Day.

Jack noted that we need \$10 to secure the field besides the \$200 bond. Merrill cut a check for same.

Jack was having trouble getting indoor flying dates. Jack is trying to get Thursday's. Thursday's are not available till April 16, which is when folk's will want to do outdoor flying. Jack suggests we move forward and buy insurance so we can do the indoor flying even though we would only use it for 11 dates. Jack also suggested we put up a can for collecting money to pay the town for flying indoors.

Hobbytown has move to Federal Road, Brookfield. Merrill talked to Craig Trachten about moving the club meetings to his store. Craig was agreeable. We might have to move club meetings to a different day of the week. Merrill will confirm when it would be a good time to consider moving the meeting to Craig's store. Probably would start next year. A vote will have to taken to approve this. If the meeting is moved to Brookfield, meeting attendance would improve.

Club meetings will continue to be here at Crown Court until decided otherwise.

John's brother will not be updating the website anymore. John will find another place to host the site.

Club elections will be held in March. Please attend this meeting. Your vote is crucial.

Fly RC club asked Jack if we wanted to take over their Newtown Field to fiscal problems. Jack suggested that we do not assume the Newtown Field because the field is not good enough for gas engines. It is a good field for electrics and gliders. Also there is no parking.
